

**Boosting the role of HEIs in the industrial transformation towards the Industry 4.0 paradigm
in Georgia and Ukraine
609939-EPP-1-2019-1-BE-EPPKA2-CBHE-JP**

Event: Webinar
Topic: “Big data & urban analytics”
Organizer: KTH Royal Institute of Technology
Lecturer: Dr. Oleksii Pasichnyi
Date and time: 22/02/2021 from 10:00 to 11:30 CET
Connection: ZOOM: <https://kth-se.zoom.us/j/66682082673>
Moderator: Dr. Oleksii Pasichnyi

Abstract of the webinar

Rapid growth of the number of information sources triggered by decreasing costs of the sensors and development of IoT infrastructure result in possibility to collect enormous amount of data. Together with such data collection, several questions come up: Is this a correct data format? What can we do with this data? What instruments can be applied to process the collected data? How can we employ existing data processing centers to process the collected data?

In this webinar we are going to look on approaches to answer these questions having urban data in Stockholm as an example.
